

## Correction

### Correction to “Cyberattacks on Canadian health information systems”

CMAJ has been made aware of an error that occurred in the Nov. 20, 2023, issue.<sup>1</sup>

It was noted that the House of Commons enacted the *Critical Cyber Systems Protection Act* in June 2022, when, in fact, this is when the Government of Canada first introduced *Bill C-26, An Act Respecting Cyber Security*, which would amend the *Telecommunications Act*. The second part of Bill C-26 proposes the *Critical Cyber Systems Protection Act*. Bill C-26 is currently still in committee in the House of Commons.

This has been corrected at [cmaj.ca](http://cmaj.ca).
