

## CORRECTION

### Diffuse skin thickening, myalgias and joint stiffness in a 41-year-old man

*CMAJ* has been made aware of an error that occurred in the Mar. 5, 2018, issue.<sup>1</sup>

In the last paragraph of the section “What investigations should be ordered next?,” the second sentence began “White blood cell count was  $9.2 \times 10^9/L$ .” This should have read “White blood cell count was  $9.2 \times 10^9/L$ .”

This has been corrected at [cmaj.ca](http://cmaj.ca).
