

Correction

Correction to “Excess mortality, COVID-19 and health care systems in Canada”

CMAJ has been made aware of an error that occurred in the May 30, 2022, issue.¹

In Figure 1, the excess and COVID-19 mortality rates are indicated as being per 100 000 population per week on the y-axis of each graph, but rates were calculated per 1 000 000 population per week.

This has been corrected at cmaj.ca.
